

# LED-illuminated Door Safety Kits

**Prevent Trucks from Hitting Your Doors with LED Door Safety Kits!**

*LEDs are red when door is down, flashing red when in motion and solid green when fully open*

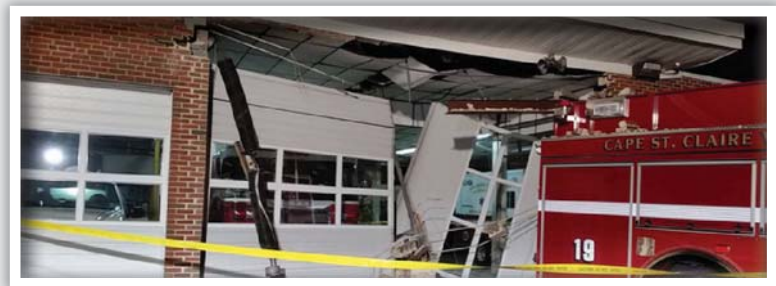

**Product Details**

Our LED Door Safety Kit attaches brightly colored LED light strips to the driver's side of a commercial door frame. The LEDs are connected to our patent-pending LED Controller device. Integrates with virtually any photo-eye or laser curtain. Available in 5', 10', 15' and 20' lengths for single or double sided doors.

- Reduction in door and equipment damage
- Acts as a Power Loss Indicator - LEDs flash red when door operator loses power
- Preserves Night Vision - Bright red LEDs bask the area in red light reducing the need for white light
- Compatible with most commercial garage doors and high-speed doors
- LEDs can flash white if safety eye is triggered or damaged

*Lights are GREEN when doors are fully open, clearly indicating when the driver can GO.*

*Each incident can cost over \$20-\$30K to fix the door and/or the truck. Our LEDs can save you thousands!*
