

# LED Swing & Slide Gate Light Kits

**Heavy Gates are Very Dangerous! All Gates Should be Well Lit for Safety.**

*Dramatically reduces accidents while significantly improving gate appearance!*

**Product Details**

Every gate should be lit up for safety. Especially heavy gates! Our swing gate and slide gate light kits put attractive LED lighting on heavy gates. Industrial grade LED strips can remain white 24/7, or be red when closed, flashing while moving, and green when fully open.

- Easy upgrade for existing swing/slide gates
- Lights up roadway at night, increasing gate visibility for drivers, bicyclists and pedestrians
- LEDs can be mounted vertically on entrapment edges using 4' or 5' LEDs
- 4 track options: single-flange, dual-flange, 90° or 45° flange for indirect lighting effect
- Totally weatherproof and durable
- 5', 10', 15', 20' kits available

*Our swing gate LED lighting is mounted under the gate facing the roadway*

*Slide gate lighting is mounted to the fixed entry posts on left and right of the entry.*

**Easy to install! Available in 4 different track styles for easy upgrade to existing gates.**
